1000 Drones for Ukraine

Aims to mobilize all efforts and resources necessary to purchase and provide 1,000 drones to the defenders of Ukraine, who guard and protect its borders. The delivery of reconnaissance devices is done as part of the humanitarian missions by the International Headquarters for Aid to Ukrainians to the front lines in Kharkiv, Luhansk, Donetsk, Zaporizhzhya, and Kherson regions.

FLIGHT TO RECOVER

Flight To Recovery

The Flight to Recovery is an initiative in continuation of Veteranius project aimed at reintegration of veterans to peaceful life. The project focuses at empowering, rehabilitation and profession reorientation of veterans in rehabilitation centers through FPV drones flying simulator programs conducted by professional instructors. Project also focuses on cognitive stimulation, physical movement, and problem-solving skills, which are crucial aspects of rehabilitation.

Mobile Shower Laundry Units

Unsanitary conditions are a major concern for Ukrainian defenders, with 9 out of 10 reporting dissatisfaction. Poor hygiene can lead to skin diseases, low morale, and even mental health issues. That's why we're proud to offer a solution: a modern mobile trailer equipped with 2 showers, 2 washers, and 2 dryers, along with a water container and diesel generator. It can accommodate up to 50 people per day and costs around \$20,000.
